

## Warehouse Manager

Location: Dartford

Department: Operations

Reporting To: Operations Manager

### About Solar:

Solar is a leading brand of Carp Fishing with a growing presence in the UK & EU market. We're seeking a detail-oriented Warehouse Manager to oversee our Dartford facility and 3rd-party logistics partners, ensuring seamless inventory management, efficient operations, and compliance with health & safety standards.

### Key Responsibilities:

- Manage end-to-end inventory control across owned and 3rd-party warehouses, including monthly stock reconciliations and report preparation.
- Supervise goods-in processes, verifying deliveries against documentation and resolving discrepancies promptly.
- Coordinate order dispatch and inter-warehouse transfers to meet customer timelines and optimize logistics efficiency.
- Oversee production of in-house products, monitoring raw material levels and ensuring quality standards.
- Maintain warehouse organisation, equipment maintenance, and layout optimisation for peak productivity.
- Ensure full compliance with health & safety regulations, conduct regular audits and training.

### Requirements:

- Proven experience in warehouse management, preferably in a fast-paced distribution environment.
- Proficiency in ERP systems (e.g., NetSuite / SAP).
- Strong organisational and problem-solving skills, with attention to detail.
- Ability to lead and train a diverse team, including part-time staff and remote workers.
- UK health & safety certification (e.g., IOSH).
- A second language is not essential but a plus (French / Germany / Mandarin / Dutch etc).
- A full UK Driving License

### What We Offer:

Competitive salary + benefits package.

Opportunity to shape operations in a growing company.

### TO APPLY:
